Not in Portland
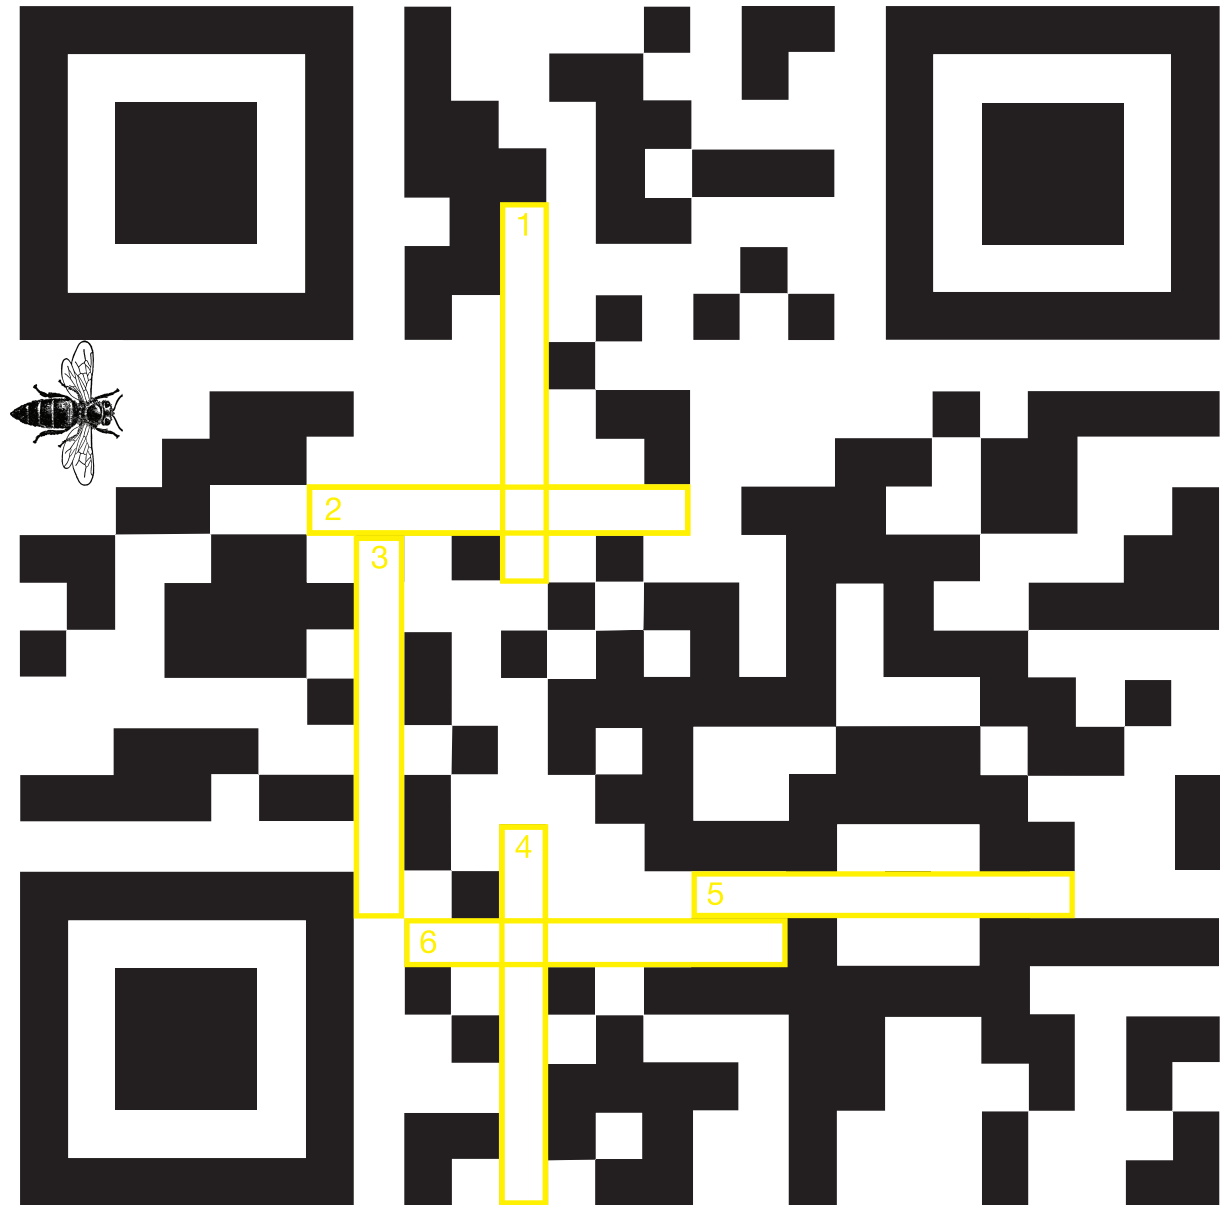

That you've made it this far is a *sign that points* me to the belief that you're the right agents for the job.

1. Lillehammer × the Linux kernel that debuted in 2003 ÷ Columbia River Gorge

2. Guadalajara - (Rose Garden × Independence) + length of the A1214 in miles

3. ((five dashes of Morse code × the number of articles on the english language Wikipedia ÷ the number of styles of Elvis stamps issued in the US)) + hex 0x80

4. Crater Lake - Pacific Ocean + hexagon's sides

5. The other Portland - Times Square - (Great Wall of China ÷ 100)

6. (Casablanca ÷ 11) - (Timbuktu ÷ 19) + Osmium

All results are rounded (up or down) to the nearest decimal.
